Choice Shorthorns Go North

What was unquestionably the finest bunch of pure bred cattle ever shipped at one time from this point were loaded Friday by A. S. McDougall. The purser chaser was Claude Gallinger of Tofield, Alta., who after visiting several breeders finally located what he wanted here. The shipment included the yearling bull, "Lismore Welcome," sired by Balescire Welcome, Imp., and the following females: "Lismore Emmeline 2nd," 3 years old; "Lismore Eliza 2nd," 2 years old; "Lady Emmeline," 1 year old; "Lismore Daisy," 1 year; "Slyv Cora," 2 years; "Golden Gem," 1 year. Two of the above were sired by Collynie Champion and two by Balescire Beauty's Pride, Imp.

The animals sold included all four entries made for the Calgary Stock Show by Mr. McDougall, who will in consequence exhibit only Oxford and Hampshire sheep this year, making it the first time in many years he has not entries in the shorthorn classes.

The prices realized were highly satisfactory to the vendor, and considering the quality of the stock, to the purchaser also.

Chicken Dinner

November 7th

Arrangements for the C.W.L. chicken dinner, to be held in the Community Hall on Saturday, November 7th, are complete. There will be novelty and candy booths, and dinner will be served from 5 o'clock to 8, at 35c for adults and 25c for children under 12 years.

WEDDINGS

Hartung-Leback

A very pretty wedding took place at the home of Mr. and Mrs. Con. Leback on October 21st, the principals being Miss Bertha Leback, their daughter, and John Hartung.

The bride was tastefully attired in a gown of white flat crepe, and wore a fashionable veil and orange blossoms, carrying a bouquet of white roses. The bridegroom was Emma Gerlitz of Aldersyde, while the groomsmen was Henry Hartung, brother of the groom.

After the ceremony the company sat down to a lovely dinner, which was highly enjoyed by all. The bride was the recipient of many beautiful and useful presents.

Miliken-Frank

Miss Vivian Frank, daughter of Mr. and Mrs. H. A. Frank, of Carmangay, East, and Lynn S. Miliken, son of Mr. and Mrs. C. U. Miliken, of Champion, were united in holy matrimony on Saturday evening at the United church parsonage in Carmangay by the Rev. Mr. R. E. Finlay.

They were unattended. After the ceremony they had tea at the parsonage and helped to celebrate Gordon Finlay's 18th birthday anniversary.—Lethbridge Herald.

Mrs. Dawson entertained the Amity Club at the parsonage on Oct. 23. There was a fair attendance. Mrs. R. I. Baker and Mrs. Farries were visitors. A very pleasant afternoon was spent by all; and a delicious lunch was served by the hostess, assisted by Mrs. Baker.

Local Trucks In Accidents

Two local trucks engaged in hauling gravel on the Dominion Government work south of Lethbridge were damaged by going into the ditch while load. Carl Atkins, driving Geo. Depue's truck, met with his accident while passing a road maintainer, loose gravel being the cause of the truck leaving the road. The cab was torn off the truck, but the driver was unhurt. Roy Taylor, with W. Melones' truck, met with the same trouble in trying to avoid a collision, wrecking the cab of the truck, and putting the driver's shoulder out of joint.

Garage Alterations Making Progress

I Granville's garage is making rapid progress and promises to be a real building when completed. Taylor Bros. have completed shingling the roof and preparations for plastering are under way in the hands of Alex Rinaldi and John Magnuson. Heated space will be provided for those desiring it and in every respect the building will be the exact opposite of what it formerly was.

O.E.S. Section Holds Bridge Party

Mrs. W. E. Watkins' section of the O.E.S. entertained at her home on Thursday evening, Oct. 22. Ten tables of bridge were in play, the honors going to Mrs. Harry Smith and Mrs. N. McLeod, 1st and consolation, respectively, and O. Harper and Geo. Orr for gentlemen. A pleasant evening was brought to a close with a dainty lunch served by Mrs. Watkins and members of her section.

Band Concert Future Prospect

Preparations are in progress for the holding of a band concert by the Vicuna band in the Community Hall on Sunday, November 8th. The band's previous appearance here and the programme presented was so popular with the public that news of a return date will be particularly acceptable, and a general turnout should be as great as possible.

Auction Sale Was Fair Success

Anthony Ash's auction sale on Tuesday drew an unusually large crowd, including a great many from outside points. With the exception of the live stock fair prices were realized for the offerings. A Hopkins was the auctioneer.

McCullough Bros. Sale Ends Saturday Night

McCullough Bros. sale, which has been in progress since Oct. 17th, closes on Friday. During its progress it has been the centre of attraction for a wide circle of buyers and a large quantity of goods were disposed of. A considerable number of the buyers were from points outside the immediate district.

THURSDAY, Oct. 29, 1931

NOTES AND COMMENT.

Premier Brownlee finds that with all the requests for assistance, from relief camps to seed grain, there is not sufficient money to go round without raising taxes at a time when it would cause general resentment. The Alberta legislature has practically everything taxed about as high as it could stand, and had been increasing expenditures almost faster than the revenue grew. The proverbial rainy day did not exist in their outlook. Now it is here and finds them totally unprepared to meet the emergency.

The recent improvement in the price of wheat is welcomed by many as the beginning of the end of the depression that has enmeshed the country for the past two years. There did not appear to be a possibility that the bottom had not been reached in all forms of farm produce and even the advance registered means many millions dollars more for the wheat growers.

The League of Nations seems to have achieved the unexpected in inducing Japan to withdraw her troops from China, undoubtedly relieving a very strained situation. War, under present conditions, is about the last thing anyone wants to see.

Since the above was written Japan has practically defied the League of Nations, although expressing willingness to continue peace negotiations with China. It is still hoped that settlement of the differences between these nations will be effected — at a general ap-

We have had troubles enough here and the situation is bad, but generally speaking everyone is in no immediate difficulty as regards enough to eat, in fact practically everyone is able to operate a car. Just fancy what the situation here would be like if there had been no crop for the past three years as has been the case in many parts of Saskatchewan. We still have a very great deal to be thankful for in this part of Alberta.

New Industry For the West

Development of a new industry in Western Canada, the manufacture of insulating board from muskeg litter, took definite form during the early part of October with the start of production of the new "Moss-tex" by the Carlson Building Company, Edmonton. Accord-

ing to officials of the Natural Resources branch of the Canadian National Railways, the company contemplates expansion to Manitoba. Since the Edmonton plant was opened, 50,000 square feet of Moss-tex has been produced, comparing favorably with insulating boards manufactured of wood pulp and other fibrous materials and possesses excellent insulating and acoustic properties.

Early Winter**Is Predicted**

Bees, bears and beaver and the best barometers, and these animals predict an early winter and a cold one, in the opinion of a veteran railroader of the Canadian National Railways, who has made a close study of these weather prophets. Bees, this year, have built their nests high, wide and ample. This means that the bees are providing against deep snows and possible starvation through a long drawn out winter. The bears are rolling in fat and therefore prepared to go into early winter quarters for a long rest. Beavers already have their supply of food cut and stored against an early freeze-up and their houses are built extra strong.

Chinese To Try Five-Year Plan

A ten year industrialization plan calling for the expenditure of \$11,000,000,000 for machinery construction alone, is being considered by the Chinese government. A report to the U.S. commerce department said the plan called for the use of government and private credit instead of government ownership as in the case of Russia, in her five-year plan.

Prov. Legislature May Be Called

Consideration is being given by the government to the question of calling together the Alberta legislature at an earlier date than usually—perhaps before Christmas, declared Premier J. E. Brownlee on Friday. Whether this is done will be determined in the immediate future. Should it be decided to so call the legislature, it would probably be about the middle of December—not in special session, but to transact business within the calendar year that might be necessary in connection with unemployment and other pressing matters. The House then would probably adjourn until the regular meeting time toward the end of January.

Penitentiaries Are Getting Small

Increase of crime, "due in part at least to the depression," is seriously overtaxing penitentiary accommodation in Canada. Brigadier General W. S. Hughes, Ottawa, superintendent of Canadian penitentiaries, said at Prince Albert. He inspected the penitentiary there, particularly the new wing, which is being added to increase the accommodation of the prairie institution to 624 cells.

The output of creamery butter in Saskatchewan is running 4,000,000 pounds ahead of last year, according to reports of the Dairy Branch of that pro-

A Want Advt. Will Do It!**Our Best Thanks**

To those who responded to our appeal for payments on subscription account. The amounts involved are small individually, but collectively become very important.

We still need the money very badly, so help us if you possibly can.

You Need a Local Paper

The district is small when it is considered as a newspaper field, necessitating practically unanimous support to make its publication possible. The only flaw in this respect is an inclination to forget payment of subscription dues.

A fair start has been made towards remedying this, and if this movement continues until the Christmas holidays there will be little left to complain of.

Do It Now!

Set Your Own Standard

Most of us have seen the cartoons and read the stories appearing under the title "Keeping up with the Joneses." We have laughed over them, but at the same time exclaim loud, or murmur to ourselves, "What fools!"

Calmly facing, and closely diagnosing, the situation which confronts thousands of us today as individuals, and all of us collectively as race, we find that the many provincial and federal governments, and we must admit that no small part of our present financial difficulties, are the result of conditions created by an attitude analogous to that portrayed in "the Joneses."

The acuteness of the present day depression may be due to other causes, but the main reason is a protracted drought, and consequent crop failure, leading to unemployment in urban centres—but we not as a people, individually and collectively, have been able to withstand these shocks if, when times were prosperous and business active, we had not lived up to it, and in many cases failed to keep up with somebody else?

Luckily back, as it were, in the days when those people in the race to "look back," take stock, and give heed to things that at other times when everything is forcing full speed ahead they will not stop and consider, is not it possible to see that in indulged in expenditures which our actual position does not warrant, and which, when exaggerated, become a vanity which we must keep up with somebody else?

The old motor car, still serviceable was not good enough because somebody else had bought a new, more up-to-date, faster car; the simple, refreshing, health-giving holiday at a modest hotel, now employed for you, has to be given up to an expensive trip to the Coast, or a week abroad. In Florida, too, because somebody else had followed such a course; or because somebody else sent their son or daughter to university, we must do likewise, even though our boy and girl might not have similar taste or inclinations or aptitude for the higher degrees of learning.

And these traits of character in the individual naturally have found expression in the policies of the governments we have created. Because older established, more populous and wealthier provinces, states and countries through the expenditure of money, built roads, created systems of permanent, alternative roads, why we must do the same—although young, weak and not yet wealthy as a community. Not only roads, but our schools, our public buildings, all our public services had to be the equal of those to be found anywhere else. As individuals, as electors, we demanded these things, and governments were forced to comply with our demands giving way for those who would. We were determined to keep up with the Joneses of the whole world.

As a result the factories of the world were busy turning out not necessities alone but enormous quantities of luxuries at a fabulous cost, simple, refreshing, health-giving holidays at a modest hotel, now mounted in value to dizzy heights. Everybody bought them with a view to impressing his neighbour, so that they might buy still more luxury, save or later a collapse in to come, and the Joneses and their war army of imitators are now in difficulty.

There is one lesson all may well take to heart at this time. It is this: Right or wrong—and wrongly and certainly wrong in the vast differences which do exist—wealth is unevenly divided, income and earning power vary greatly from one person to another, and at different periods of a person's life. One man's standard of living and expenditure cannot be measured by another's standard and proper by another man. While our present distribution of wealth continues, one man's loose change will be another man's extravagant folly.

Like everything else in this changing world, the social order is changing, right or wrong, and the right and privilege of every man and woman to work for a cause, to earn a living, to contribute to the welfare of others, is not this limitation, however, that they must consider and respect the rights of others just as they expect their rights to be respected? Self-interest alone must not be our guide, because, in the final analysis, instead of self-interest, alone means self-destruction. And this is true of nations just as truly as it is true of individuals.

George Washington once said: "Economy makes happy houses and sound nations—until it deep." Far better to follow this sage advice than to indulge in the heart-burning dissatisfaction of continually trying to keep up with the Joneses.

New Appointment

Dr. C. N. Bell, of Gram Standard Board, Has Been Superannuated

Dr. C. N. Bell, first secretary of the Winnipeg Grain Exchange, and recorder of the records of the Western Grain Standards Board and the Grain Appeals Board, having reached the age limit for civil servants, has been superannuated and is succeeded in his position by Major C. J. Drake, who has been transferred from the Canadian Government Elevators at Fort William.

Major Drake is well known in Winnipeg, having held a secretarial position in the Manitoba legislature for a number of years.

British women claim to live longer than American women, death being between the ages of 50 and 64 is nearly 30 per cent higher than that in Britain.

The chemical industry is one of the most important in Poland.

for CHILBLAINS

Be generous with the Minard's Liniment. It is the only party with warm, moist heat. It relieves the chilblains in winter.

22 What a relief!

W. N. U. 1913

Becoming Serious Matter

Gasoline Being Stolen From Government Caches in North

Hundreds of gallons of gasoline have been stolen from government gas stations in various parts of Manitoba, Saskatchewan, and the Northwest Territories during the past two years and investigations are underway by the RCMP.

The theft of many gallons of gas does not seem a very serious offense, but to the R.C.M.P., planes in their travels across the bush country it may easily enough be a matter of life and death.

Expecting to find a cache of hundreds of gallons to carry them to civilization or to the next stoping place, pilots frequently have to make supply buildings broken into and only a few scattered tins of fuel left.

Gasoline that cost 35 cents a gallon in this city is eagerly purchased for 10 cents a gallon "north of 57."

The cost of fueling the freight planes differs.

Last winter a record price of \$15 a gallon was paid by a northern mining company for transporting gas to Reindeer Lake in Northern Saskatchewan.

Hard Times in Labrador

Twelve Thousand Families Are Being Helped To Be Freezing Starvation

Unless prompt assistance is forthcoming some 12,000 families face starvation this winter in the Button Bay district of Labrador, according to a report of the Canadian Council on Social Planning.

A report by Rev. A. S. Leonman, provincial school inspector and Anglican missionary of the stricken district.

This condition was brought about by the failure of the cod fishing industry last year.

The report was considered by a cabinet meeting, at the conclusion of which Premier L. A. Taschereau said the Quebec Government will do something as soon as possible to alleviate the situation.

"We would naturally like the Dominion authorities to go 50-50 with us in providing this relief," he added.

DRAPERY MADE NEW

When we returned housekeeping a month ago I found my draperies had been creased from packing. I hurried home and began to remove the creases. Then I forgot them. The results became terrible—tiny wrinkles, spots, and stains.

"I was heart sick until the happy thought struck me that I could dye them a deeper green, and as I used Diamond Dyes they look like new again. I have had many easier dyes to use than Diamond Dyes. They give the best results. I can't imagine a better way of rinsing or dying—and never take the life out of cloth as other dyes do."

Mrs. J. P. T., Montreal.

Right or wrong—and rightly and certainly wrong in the vast differences which do exist—wealth is unevenly divided, income and earning power vary greatly from one person to another, and at different periods of a person's life.

One man's standard of living and expenditure cannot be measured by another's standard and proper by another man.

While our present distribution of wealth continues, one man's loose change will be another man's extravagant folly.

Like everything else in this changing world, the social order is changing, right or wrong, and the right and privilege of every man and woman to work for a cause, to earn a living, to contribute to the welfare of others, is not this limitation, however, that they must consider and respect the rights of others just as they expect their rights to be respected? Self-interest alone must not be our guide, because, in the final analysis, instead of self-interest, alone means self-destruction. And this is true of nations just as truly as it is true of individuals.

George Washington once said: "Economy makes happy houses and sound nations—until it deep." Far better to follow this sage advice than to indulge in the heart-burning dissatisfaction of continually trying to keep up with the Joneses.

It is useless to kick for a discount when called upon to pay the debt of nature.

Acid Stomach Completely Relieved by Famous Vegetable Pills

Mr. Frank C. Blazquez, M.D., of the Department of Pathology of New York City Hospital, in the American Journal of Cancer.

Of 18 deaths to date among women in the New Jersey plant, he says five died of cancer. He finds a sixth case death to be due to radium rash pain by a woman who worked on New York and Connecticut clock factories. Four more "dial" cases suspected of developing cancer are under observation.

The report is made by Harrison S. Martin, M.D., of the Department of Pathology of New York City Hospital, in the American Journal of Cancer.

"Who was Samson?" The scholar-spirit asked his pen, looked at the ceiling for inspiration, and wrote:

"Samson, the strong man appointed to entertain the Philistines. He brought the house down."

Blooming varieties of begonia like plenty of sunshines, whereas varieties with spotted leaves thrive in north windows.

Lack of iron in the diet rather than lack of vitamin "G" may be the cause of pelagra.

Drought has done considerable damage to the flax crop in Italy.

Achieved Great Success

Lord Byng Restored Public Confidence In Scotland Yard

Canadians will read with warm satisfaction the tribute paid to Lord Byng by the chief constable on his retirement from the office of Commissioner of the Metropolitan Police Force.

The great popularity which his lordship gained with the soldiers under his command, and the esteem of Europe was shared by the citizens of this country when he became Governor-General of the Dominion. He was liked for his personal qualities and especially for his quiet, dignified and courageous character.

When he was appointed to Scotland Yard there were some who wondered whether military qualifications were the right qualifications for a real policeman. Lord Byng has suffered much from ill-health during his tenure of office, but he has succeeded in achieving a great success in his new post.

Certainly his record in the British Metropolitan Police Department, and it was to no stinkure that the great commander was called. He undertook the task with his usual energy and determination, and the result, according to the Times, is that "Scotland Yard has gained nothing less than complete restoration of public confidence in the police force, and the public are once more safe in its keeping."

The production of Zig-Zag Gouache has been a success, and the sales are increasing.

Lord Byng has done well for himself.

Mass Purchasing Needed

Production Has No Value Unless Goods Can Be Bought

Just as we have found out about the need for mass production, so have we found out about the whole thing is spoiled by our not knowing enough about mass purchasing! We believed so sincerely that he was the real benefactor of the Government of Italy for an eight-day tour of the country, during which visits will be made to such interesting institutions as the Louvre, Florence, Padua, Verona, Bologna, Ravenna, Milan, Como, and Venice.

Canadian delegates will return by way of Switzerland, Germany, Belgium and France, and to Great Britain. Good roads, better roads, included via Gibraltar and Old Spain, via the Riveris, and by steamship direct to America.

Mr. F. C. Edward, Dominion Postmaster, is again giving an active lead to Canadian participation and will be glad to hear from anyone interested in attending the Rome Congress.

World's Poultry Congress

Preparations Being Made To Entertain Delegates To Rome

Delegates to the Fifth World's Poultry Congress being held in Rome, Italy, in 1933, are assured an exceptional opportunity for visiting. Not only will the delegates be entertained by the Pope, but they will be guests of the Government of Italy for an eight-day tour of the country, during which visits will be made to such interesting institutions as the Louvre, Florence, Padua, Verona, Bologna, Ravenna, Milan, Como, and Venice.

Canadian delegates will return by way of Switzerland, Germany, Belgium and France, and to Great Britain. Good roads, better roads, included via Gibraltar and Old Spain, via the Riveris, and by steamship direct to America.

Mr. F. C. Edward, Dominion Postmaster, is again giving an active lead to Canadian participation and will be glad to hear from anyone interested in attending the Rome Congress.

Telegraphing Flowers

Television May Enable Purchaser To Actually See The Flower

The sending of "flowers by telegraph" has for some years been a great convenience to many people, although they have been obliged largely to rely on the services of florists or plant to the florist. But, according to information given out at the recent convention of the Florists Telegraph Delivery Association, television may enable the purchaser to actually see his flower before it is delivered.

The Boston, Mass., and Charlton, S.C., navy yards will be closed, and so will the operating base at New Orleans, La., the naval station at Newport, Rhode Island, and the naval repair depot at Lake Denmark, New Jersey.

Royal Jade Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Royal Jade Medicine. For colds, colds, sore throat, bronchitis, trouble it is invaluable; for scalds, burns, scalds, cuts, insect bites, white for cuts, sores and the like it is an unquestionable healer. It needs no doctor, no nurse, no attendant, no special care.

Royal Jade Medicine.—You need no physician for ordinary ills when you have at hand a bottle of Dr. Royal Jade Medicine. For colds, colds, sore throat, bronchitis, trouble it is invaluable; for scalds, burns, scalds, cuts, insect bites, white for cuts, sores and the like it is an unquestionable healer. It needs no doctor, no nurse, no attendant, no special care.

Canada a Good Country

Times may be "hard" in Canada in some places, but generally speaking, the country is a good place to live in, and when you come to it you come to a place where it comes to your business integrity and solidity. Naturally, we cannot hope to be rid of those who are always tripping over their lower lip, but these, fortunately, are in the minority. But how that minority can sometimes broadcast.

A man's reputation is made as much by what he leaves unsaid as by what he says.

People who are too old to learn have outlived their usefulness.

Owners of radio sets in Portugal are to be taxed \$2.25 a year.

"FATIGUE?"

I just postpone it!"

"No, I don't have 'nerves.' You can't have them, and hold this sort of position. My head used to throb around three o'clock, and certain days, of course, were worse than others."

"Then I learned to rely on Aspirin."

The sure cure for any headache is rest. But sometimes you just can't get away when Aspirin saves the day. Two tablets, and the nagging pain is gone until you are home. And once you are comfortable the pain is gone.

Keep Aspirin handy. Don't put it away, or let it get lost. Fighting a headache to finish the day may be hard, but fighting a headache to get a night's sleep because you've an annoying cold, or irritated throat, or grumbly tooth, or neuralgia, or whatever it is, is even harder. They'll depress the heart, and may be taken freely. That is medical opinion. It is a fact established by the last two thousand years of medicine.

The only caution is when you are buying Aspirin. Don't take a substance because it will not act the same. Aspirin is made in Canada.

SCOTT'S EMULSION

of Norwegian Cod Liver Oil

 Builds Resistance Easy to Take

THE HOUSE OF DREAMS-COME-TRUE

BY MARGARET PEDLER

"The Spectre of 'The Hermit of Far End,'" The Herald & Stoughton, Ltd., London.

CHAPTER IV.—Continued.

Jean always sensitive to her surroundings, shivered a little.

"It's rather eerie, isn't it?" she said. "It's just as if someone had suddenly come out of the dark."

"Quite a nice bit of symbolism," he returned enigmatically.

"How? I don't think I understand."

He laughed a little.

"How should you? You're young. Fine time to be afraid of the dark and snuff out the lights for you when you are—what shall we say? Eighteen!"

"You're two years out!" replied Jean.

"As much? Then let's hope you'll have so much the longer to wait before Madame Destiny comes round with her snuffers."

He spoke with a kind of bitter bittersweetness, as though the moment of doom through which he had been passed. Jean looked across at him with a vague trouble in her face.

"Then, do you think—" she spoke uncertainly. "do you believe it is inevitable that she will come—sooner or later?"

"Hope not—to you," he said gently.

"But she comes to most of us."

She looked at him and asked quietly, but with a note of final shyness in his voice—a kind of "thus far shalt thou come and no further"—that made her turn pale with alarm.

"Starting! This air makes me feel as if I'd never had anything to eat in my life before!"

"I'll come home and inspect my sandwich with all the ceremony it deserves."

"I'll admit to a preference for the sandwich at the moment," he acknowledged. "Come, now, confess! Are you a sandwich-and-a-beer kind?"

"Starving! This air makes me feel as if I'd never had anything to eat in my life before!"

"I'll come home and inspect my sandwich a manager."

The proposed reprieve proved to be a roughly constructed little hut—hardly more than a shed provided with a door and thick-paneled window. Its only furniture was a single bed and a chair.

But that it had served its purpose as a kind of "travellers' rest" was proved by the groupings of appreciations, both printed and yet to be printed, on the board, carefully preserved from damp in a strong metal box. Jean amused herself by perusing the various commendations to its page while the Englishman unpacked the contents of his knapsack.

The lunch that followed was a messy little meal, the two conversing a great deal about the freedom from stress based on the remarkable knowledge that they would, in all probability, never meet again. Afterwards, they bent their energies to getting the sand out of their hair, and when a sift of her foot got heated under the sun, the sand wrung a quick exclamation from her that he paused, wheeling round in consternation.

"I beg your pardon! I'm walking you to your legal! Why on earth didn't you stop?"

There was something irresistibly boyish about the quick apology. Jean laughed, a little breathless from the swiftness of his action.

"I seemed so bent on getting to the top in the least possible time," she replied demurely, "that I didn't like to disappoint you."

"I'm afraid I make a poor sort of guide," he admitted. "I was thinking of something else. You must forgive me."

They resumed their climb more leisurely. The trees were thinning a bit now, and the tall, straight trunks winged with strong, smooth-bladed hawks, which could catch glimmers of the white world beyond.

Presently they came out above the pine-wood on to the edge of a broad plateau and Jean uttered an exclamation of delight, for there, silhouetted against the scene thus suddenly unfolded,

Behind them, in the pine-ginged valley, a frozen sheet of water gleamed like a dull sheet of metal, with more than a fair share, stretched the green chain of mountain pinnacles after pinnacle, capped with snow,

thrusting up into the cloud-swept sky. Through rifts in the cloud—almost, it seemed, torn in the breast of heaven by those towering peaks—the sunlight shone in long shafts, chequering the snows with shimmering patches of pale gold.

"It was worth the climb, then?"

The Englishman, his gaze on Jean's rapt face, turned the silence suddenly.

"She told me to him—again."

"It's so beautiful that it makes one's heart ache!" she exclaimed, laying her hand on her breast with the little frosty turn of gesture she derived from her French ancestry.

"She said no more, but she remained very still, drinking in the sheer loveliness of the scene.

The man regarded her quietly as she stood there, her head tilted back, skinning her lean, brown-clad figure, striking a warm note amid the chill Alpine whites and greys. Her face was slightly tilted, and as the sun shone glistened on her hair and eyes with a golden light. Her eyes, half hidden in them, there was something vividly arresting about her—a splendour of ardent youth which brought a somewhat "wistful expression into the eyes weary eyes of the man watching her.

His thought travelled back to the brief snatch of conversation evoked by the sudden gloom of the pine woods. Surely, for once, Fate would lay aside her snuffers and let this young, eager life pass by unshadowed.

"Quite a nice bit of symbolism," he returned enigmatically.

"How? I don't think I understand."

He laughed a little.

"How should you? You're young. Fine time to be afraid of the dark and snuff out the lights for you when you are—what shall we say? Eighteen!"

"You're two years out!" replied Jean.

"As much? Then let's hope you'll have so much the longer to wait before Madame Destiny comes round with her snuffers."

He spoke with a kind of bitter bittersweetness, as though the moment of doom through which he had been passed. Jean looked across at him with a vague trouble in her face.

"Then, do you think—" she spoke uncertainly. "do you believe it is inevitable that she will come—sooner or later?"

"Hope not—to you," he said gently.

"But she comes to most of us."

She looked at him and asked quietly, but with a note of final shyness in his voice—a kind of "thus far shalt thou come and no further"—that made her turn pale with alarm.

"Starving! This air makes me feel as if I'd never had anything to eat in my life before!"

"I'll come home and inspect my sandwich with all the ceremony it deserves."

"I'll admit to a preference for the sandwich at the moment," he acknowledged. "Come, now, confess! Are you a sandwich-and-a-beer kind?"

"Starving! This air makes me feel as if I'd never had anything to eat in my life before!"

"I'll come home and inspect my sandwich a manager."

The proposed reprieve proved to be a roughly constructed little hut—hardly more than a shed provided with a door and thick-paneled window. Its only furniture was a single bed and a chair.

But that it had served its purpose as a kind of "travellers' rest" was proved by the groupings of appreciations, both printed and yet to be printed, on the board, carefully preserved from damp in a strong metal box. Jean amused herself by perusing the various commendations to its page while the Englishman unpacked the contents of his knapsack.

The lunch that followed was a messy little meal, the two conversing a great deal about the freedom from stress based on the remarkable knowledge that they would, in all probability, never meet again. Afterwards, they bent their energies to getting the sand out of their hair, and when a sift of her foot got heated under the sun, the sand wrung a quick exclamation from her that he paused, wheeling round in consternation.

"I beg your pardon! I'm walking you to your legal! Why on earth didn't you stop?"

CHILD need REGULATING?

Castoria Will DO IT!

When your child needs regulating, remember this—the organs of babies and children are delicate. Little mistakes must be avoided. Little forces? That's why Castoria is used by so many doctors and mothers. It is a safe, non-toxic medicine. It contains no harsh, harmful drugs, no narcotics. You can give it to your child with complete safety. It is an equally effective regulator for older children. The next time you have a little fever, or a digestive upset, give him the help of Castoria, the children's own remedy. Granule Castoria has the name.

Castoria
CHILDREN CRY FOR IT

Duck Carries Band For Nine Years

Valuable Information Regarding Habits Of Birds Obtained Through Banding Method

On the first day of the 1930 open season for duck hunting, a resident of New Brunswick, a resident of Joliette brought down a banded black duck which had been winging its way over marsh and river for months. The bird was banded at the fact that the bird was wearing band No. 5186, which is one of the official bands used by the National Parks of Canada Branch, Department of Lands and Forests, and United States Bureau of Biological Survey at Washington, D.C., which co-operate in conducting bird banding as a means of collecting scientific information on wild birds.

It was placed in a cage at the H.S. Odier, K.C., at Lake Seugog, Ontario, on September 15, 1921. Could it be related the story of the duck's adventures and where it had managed to go for nine years? It is interesting to note that the bird was banded for over nine years.

It is an interesting record. Much valuable information concerning the migration range, and longevity of many species of wild birds is being gathered by the banding system. Any person who finds a banded bird is requested to help with this important work by reporting the details to the Commissioner, National Parks of Canada, Department of the Interior, Ottawa.

Experience Is Limited

United States Has Not Learned Secret Of Loading

Before the war, England conducted the great bulk of the world's trade with a trifling gold stock, and she took advantage of the situation by free lending abroad. Even though the United States has \$1,000,000,000 of gold is doing nothing with it, and unconsciously is thereby helping to accentuate and prolong the depression in world trade.

England's

STEVENS SEES BETTER TIMES FOR DOMINION

Montreal, Que.—A message of confidence and optimism was brought to a Canadian Manufacturers' Association luncheon here by Hon. H. H. Stevens, Minister of Trade and Commerce.

Prosperity, based on more permanent structures than those which had collapsed in the hectic days of 1929 and 1930, awaited the country in the new epoch which opens next year, he declared.

The Minister was given an eager hearing as he pointed to certain facts and figures to support his conviction that optimism was justified. He hoped that there would be, by way of contrast with the financial communiques published on the financial pages or daily newspapers which he said, depicted little but the worst side of conditions.

Things were undoubtedly bad at present, but there was a silver lining, the Minister stated. His purpose was to seek to instill confidence in the country, in the people and in the future, for confidence was needed to do away with the pessimism which is greater than any other element in the human make-up. There was a great deal of apprehension. There was a lack of trust among unfortunate and dedicated minorities.

"A genuine effort to stimulate internal business is liable to bring more definite results than efforts spent in external trade," Hon. Mr. Stevens said. "The market for Canada in 1929, one of high prices, in which total production in this country had been disposed of on the basis of 20 per cent. for external trade and 80 per cent. for internal trade, an increase of one per cent. in internal trade will mean an increase of \$50,000,000 whereas one per cent. increase in external trade would mean only \$12,000,000."

"I am not seeking to diminish the need for expanding export trade, but what I am seeking to impress upon your minds is the opportunity you have of making a rapid fair expansion of the business of the country by itself."

Reports appearing constantly in the newspapers showing differences between today and the same day last year had a bad effect on the human mind," the Minister said. "It was bad, but the Minister said.

"As a matter of fact it is not so bad. In the matter of exports we find for the first eight months 1930 that 1931 the drop this year is 28 per cent., while this year is nearly a third, but on the comparison of prices, as between the two years, we find that the drop would be only 13 per cent."

Mr. Stevens called attention to the new process for building and remarked that many parts of the main cities of Canada would have to be rebuilt. He had noted late of the trend in that direction in Montreal.

Not Yet Learned Lesson

Many Diseases Have Apparently Faded To Nothing

Toronto, Ont.—Equality of sacrifice among the nations was stressed as the salvation of the world, by Sir William Clark, British High Commissioner in Canada. Officialating at the annual prize giving at the Alexander College, St. William's, he addressed the students. Looking back over a generation, he said that in the last 20 years has seen so many disasters come upon it, culminating in the severest and most tragic depression in which the world has known. Sir William expressed a fear that even now the nations of the world had not yet learned their lesson.

Tidal Wave Sweeps Island

Fifty Lives Are Lost Following Severe Earthquake

London, Eng.—The office of the colonial secretary was informed that 50 had been lost in the tidal wave of 13 nations which struck the Island of Cristobal in the western Pacific when a tidal wave swept the seashore following an earthquake.

The disaster was severe,

occurred in the central and eastern areas of the British Solomon Islands, a report from the high commissioner of the western Pacific stated.

Want Gambling Stopped

Mexico City—Commercial organizations of Mexico, acting through the medium of the confederated chambers of commerce, will ask President Ortiz Rubio to put an absolute stop to all gambling in Mexico.

W. N. U. 1913

Giant Aeroplane

Large German Machine To Be Used in Hudson Bay Area

Montreal, Que.—One of the largest aeroplanes ever brought to Canada has been taken from the hold of the "Beaverbank" and the parts conveyed to Canadian Junkers, Limited, service station, preparatory to being assembled for use in the Hudson Bay region.

The giant German plane, the first of its kind to visit the country, has a wingspan of 62 feet, a length of 86 feet, and is 15 feet high. She will be used by Canadian Airways as a freighter. She will be able to fly a distance of 500 miles with a cargo of 3,800 pounds, at an average cruise speed of 100 miles an hour.

Only two men will be needed to fly the freighter, but if it was decided to take passengers instead of cargo she could carry a total of 34 persons.

Favorable Trade Balance

British and German Trade Shows Signs Of Improvement

Washington, D. C.—Business edged forward last month in both Great Britain and Germany.

Germany's favorable trade balance, gained through increased exports and declining imports, broke all records

The United Kingdom has a larger unfavorable trade balance than in August, but there were increases in both imports and exports.

According to the commerce department gave the following figures:

German imports, September, 448,000,000 marks; exports, 883,000,000 marks, including reparations delivered

United Kingdom imports, 900,000,000 marks;

exports, 29,000,000 pounds; and re-exports at 3,800,000 pounds.

Relief For West

\$50,000 Worth Of Food and Clothing Shipped From Eastern Canada

Ottawa, Ont.—The national emergency relief committee of the United Church of Canada was formed last August, 38 carloads of clothing, fruit and vegetables, mostly from Ontario, have been shipped to drought-stricken Alberta. The committee had made promises of 20 more carloads from this province, which already had been secured, according to officials of the church.

Figures compiled showed that a total of \$50,000 worth of food and clothing has been shipped to the prairies from Eastern Canada and British Columbia under the direction of the relief committee. The largest total is that of Ontario, Ontario, which is now leading its eighth car.

Unemployed Women

No Census Will Be Taken Says Government

Ottawa, Ont.—The Dominion Government will not undertake registration of unemployed women. This is the plain and simple decision Senator Gideon Roberts has sent to the National Council of Women. The registration of unemployed men has proved a very considerable task. He is hopeful of obtaining much desired information from the census in this regard.

Senator Roberts' letter says "the results of the efforts to register unemployed men have been, as obviously misused by duplications and as not unemployed registering in imitation of men becoming out of work, that it seems to preclude the possibility of successful registration of unemployed women."

Death of A. J. McPhail

President Of Saskatchewan Wheat Pool Passes Suddenly In Regina

Regina, Sask.—A. J. MacPhail, President of Saskatchewan Wheat Pool, died suddenly yesterday morning, and president of Canadian Co-Operative Wheat Producers, Limited, is the central selling agency, died suddenly October 21 in Regina General Hospital, at the age of 54.

Mr. MacPhail underwent an operation on September 28 for appendicitis, and since that time had been making satisfactory progress. He was to have been released from hospital the day before his death.

His attending physician, Dr. Hugh McLean, stated that embolism, or the release of a clot in the blood stream, caused his sudden death.

Floods In India

Calcutta, India.—At least 150 persons were drowned and 2,000 made homeless by floods which reached a depth of 30 feet in the vizagambaran area of Madras. About 90 per cent. of the cattle in the area were drowned and considerable damage done to the jute crop.

Repays U.S. Credit

Bank Of England Retires Large Portion Of Its Loan

New York, N. Y.—The Bank of England-Tribune says the Bank of England has repaid most of the \$125,000,000 90-day credit it obtained from the U. S. during the federal reserve system on August 1.

It was revealed, says the newspaper, in a major front page story, that the bank had been able to return almost \$100,000,000 of its credit in this manner.

The Herald-Tribune says further in part:

"News of the retirement of four-months' U. S. August 1 evoked considerable surprise and gratification here. It was regarded as a foregone conclusion that the federal reserve authority, while nominally due last week, would actually 'freeze' for some time to come."

Thus, by repayment of the major portion of its credit for the federal period, the Bank of England has now removed itself from the foreign markets, thereby removing one of the obstacles which might be considered as standing in the way of an early stabilization of sterling exchange, and simultaneously the liquidity of the federal reserve system has been increased.

Calgary, Alberta.—Damage totalled \$18,000 was done by fire which razed two barns on the Prince of Wales E.P.C. Ranch near High River, Alta. The ranch contains \$100,000 in equipment, \$10,000 in supplies, \$5,000 in feed, \$1,000 in machinery, \$1,000 in laundry," the \$600 champion heifer, "Princeton Little"; the \$600 yearling heifer, "Princeton Jessie"; and seven young bulls.

Geneva, Switzerland.—Shaken by death of U. S. Statesman, John Foster Dulles, the Swiss government has

expressed its sympathy to the people of our country, rather than a continuance of our previous false prosperity would have done."

In an interview here, Mr. Ford says that in America it is considered a thing in general, a condition, that when broken, the fire causes to believe that something can be obtained for nothing and when people get back to their self-dependence, that is, when they cease to lean on the initiative of others either to provide work or charity."

Calgary, Alberta.—Damage totalled \$18,000 was done by fire which razed two barns on the Prince of Wales E.P.C. Ranch near High River, Alta. The ranch contains \$100,000 in equipment, \$10,000 in supplies, \$5,000 in feed, \$1,000 in machinery, \$1,000 in laundry," the \$600 champion heifer, "Princeton Little"; the \$600 yearling heifer, "Princeton Jessie"; and seven young bulls.

Geneva, Switzerland.—Shaken by death of U. S. Statesman, John Foster Dulles, the Swiss government has

expressed its sympathy to the people of our country, rather than a continuance of our previous false prosperity would have done."

SEES CANCELLATION

Premiers Will Meet Again in November

To Consolidate Views on Problems Of Western Provinces

Calgary, Alberta.—Taking back to the prairie provinces the council of the League of Nations will be studied in preparation for another conference in November, premiers and cabinet members of the prairie provinces closed their conference here and left for their home town.

The meeting in November is being called to consolidate views of the prairie provinces and British Columbia in their effort to have legislation passed on problems debated. British Columbia's representatives, absent from the last meeting, will take part in the last meeting.

Travelling over the information exchanged during the two-day gathering included unemployment relief, curtailment of provincial expenditures and finances generally, debtor-creditor relations, wheat and guarantees of gasoline prices, the question of gasoline taxes alone was not decided upon, and this was a step towards an investigation under the Hoover moratorium. June will ever be remembered.

Slump Seen As Benefit

Henry Ford Says Depression Is a Wholesome Thing In General

New York, N. Y.—Henry Ford thinks the depression is a wholesome thing, and that it is good for the people of our country, rather than a continuance of our previous false prosperity would have done."

In an interview here, Mr. Ford says that in America it is considered a thing in general, a condition, that when broken, the fire causes to believe that something can be obtained for nothing and when people get back to their self-dependence, that is, when they cease to lean on the initiative of others either to provide work or charity."

Shanghai, China.—The United States Ambassador, James W. Scott, in his first press conference and sought, seemed to believe as President Chiang Kai-Shek conferred here with political adversaries who, until Japan's attack on Manchuria last month, were in active revolt against his government.

Simultaneously at Nanking, the capital, the National Government, which has replied to the United States note, accepted the Kellogg-Briand pact. The reply promised to uphold the pact, expressing deep appreciation of "America's concern over Manchurian developments."

Indian Conference Continues

Report On Contraband Is Re-adjusted Says Premier MacDonald

London, Ontario.—Premier Ramsay MacDonald has re-adjusted the federal structures committee characterized as "digging falsehoods" reports that the Indian round table conference was on the verge of breaking up.

A proposal, co-operation in dealing with capital structure of the Canadian railways, was rejected, and some arrangement with its bondholders which might permit the scaling down of its indebtedness, Dr. Swanson said, but he added: "It is not conceivable that the Dominion of Canada would be asked to contribute in this case and a plan of reconstruction of capital which will involve their agreeing to a scaling down of the face value of their investments."

Capital readjustment in debt, as the C.N.R. might well consider, was not mentioned in the report of the committee, which accompanied Premier Dr. J. M. L. Thompson.

Dr. Swanson, however, said: "It would be wholly useless, except as gesture, to propose co-operation in dealing with bondholders which accompanied Premier Dr. J. M. L. Thompson."

He indicated that the committee had been shown in the past, that it indicates the need to weigh projects of national importance carefully, and that we have sometimes done it in a cripplingly slow manner, but that it is important to make haste slowly, even in a country as rich and as capable of development as is Canada."

Dr. Swanson indicated the railway's management, operating economy of the system, indicates they proceed consistently along the lines of what they evidently, without protest from the railway, consider to be their mandate to serve the public interest, which, he said, is to make available to the public, in equipment and services, to render new business wherever it offered, to handle the routine operations of the system efficiently, and to draw on the Dominion treasury for the money necessary to keep the system going.

"If, as it has often been alleged, there has been extravagance in the addition of facilities, I for one shall accept my share of the blame which, as far as I am concerned, rests on the people of this country. Other demands, such as travellers clamoring for speedier trains, individuals and journals applauding refinement of luxury and comfort—of these is the Dominion of Canada made up, and they have had provided what they demanded."

Montreal, Que.—Hon. H. H. Stevens, Canadian Minister of Trade and Commerce, indicated yesterday that the Canadian government will ship to Canada a banquet given in honor of the Australian trade representatives by the Montreal Board of Trade, Chamber of Commerce and the Montreal branch of the Canadian Manufacturers' Association.

BRIAND PLAN IS NOW FOUND TO BE UNSUITABLE

Genève, Switzerland.—Japan has returned to the council of the League of Nations to demand a joint withdrawal of her troops from the Manchurian railway zone. In setting forth his position, Kenichi Yosizawa, Japanese spokesman, declared the nation's intention to remove the troops from Manchuria as security conditions permit, but could not accept a definite date.

This was his answer to a resolution by Australia, Canada, China, France, the United States and the United Kingdom to complete the Kellogg-Briand pact by a fixed date but also recommended that the governments of Japan and China enter into direct negotiations to arrange the details of the troop withdrawal.

Shanghai, China.—The United States Ambassador, James W. Scott, in his first press conference and sought, seemed to believe as President Chiang Kai-Shek conferred here with political adversaries who, until Japan's attack on Manchuria last month, were in active revolt against his government.

Simultaneously at Nanking, the capital, the National Government, which has replied to the United States note, accepted the Kellogg-Briand pact. The reply promised to uphold the pact, expressing deep appreciation of "America's concern over Manchurian developments."

The Briand program, which is the product of many hours of labor in private—not only called on Japan to complete evacuation by a fixed date but also recommended that the United States and China enter into direct negotiations to arrange the details of the troop withdrawal.

Mr. and Mrs. Fred Smith visited at Hartley last week.

Lost—A white sow with Albert Anderson's car brand—Patterson Bros phone 902.

Mrs. and Mrs. John Cook leave for Calgary on Monday, where they will spend the winter.

A broadcast from Lethbridge on Tuesday by the Len Davis orchestra was much appreciated by listeners in here.

Mrs. J. Cook's friends will be pleased to know she is improving after a recent illness.

Gunder Nearison is reported to be making progress towards recovery from his long illness.

W. S. Ryan of Warner and Dr. and Mrs. Gyles of Milk River were guests of Dr. and Mrs. Head over the week end.

The annual chicken supper under the auspices of the C.W.L. will be held in the Community hall on Saturday, Nov. 7th.

Clark Rhodes, who has been seriously ill, is reported to be improving slightly. Hosts of friends will hope to see him around again in the near future.

D. W. Patterson of Grand Prairie, who has been visiting his brother, P. M. Patterson, was accompanied to Lethbridge by the latter, where they visited relatives.

All Hallowe'en occurs on Saturday night and will undoubtedly be celebrated as usual. As long as the celebration is confined to things which do not result in damage to property, which very few can afford, no objection will be made to the young folks having a good time.

The National government has been sustained in Great Britain won by a sweeping majority. This is of importance to Canadians in the fact that it illustrates the spirit which leaves party bounds out of consideration when a crisis occurs. That is what we need in Canada and Alberta right now.

Russian Expectations High On Wheat Returns

From the meagre reports that emanate from Russia it is becoming apparent that collections of wheat are not up to expectations and the quality is poorer than last year. It is stated that ships that have been chartered by the Soviet Government to early grain issued to Europe have had to return empty.

Depreciated Dollar

Has Reactions

It is reported that 10 per cent depression of the Canadian dollar compared with the United States' dollar is diverting Canadian wheat to the all-Canadian grain trade routes. The depreciation of the Canadian dollar means 10 per cent additional charges via the American rates and via United States' ships.

Mr. and Mrs. M. G. Clever left for Calgary on Monday, where they will spend the winter. They intend returning to the farm in the spring.
